12. Note the attached Information Disclosure Statement(s).	PTO/SB/08) Paper No(s).					
13. Other:						

Continuation of 11. does NOT place the application in condition for allowance because:

Applicant's arguments filed on Jan. 22, 2007 have been fully considered but they are not persuasive. Applicant argues that the cushion 18 of Ishida et al. as shown in Figure 3 is not consistent with the cushion 18 as shown in Figure 4. However, as shown in Figure 4 and discussed in Paragraph 0032, the cushion is formed in a frame-like shape, therefore, the cushion 18 in both Figures 3 and 4 is the same, there is no inconsistency. Therefore, one of ordinary skill in the art would be motivated to combine the teaching of Yoshii et al. and Ishida et al. as discussed in the Final Rejection.

Applicant also argues that there is no motivation for combining Yoshii et al. and Lee and further Yoshii et al. teaches away from modifying the second supporting member frame portion as recited in claims 9 and 15.

However, the Examiner maintains, Yoshii does not explicitly teach away from modifying the second supporting member frame portion as recited in claims 9 and 15, and in response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See In re Fine, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988)and In re Jones, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, Lee teaches that by forming the second supporting member frame portion to fix in the liquid crystal display panel helps accommodating the LCD panel thus prevents the LCD panel from escaping (Paragraphs 0028 and 0048).
